

UI/UX & Feature Specification Blueprint: Auto Finance Management System

This document serves as an ultra-detailed, page-by-page blueprint for developing an Auto Finance Application, modeled after the features and UI elements described in the Infossel Auto Finance v14.0 demonstration. It is structured for UI/UX designers and developers to create wireframes and build corresponding backend logic.

1. Global UI Elements & Navigation

- **Top/Side Navigation Bar:** Contains links to Dashboards, Masters, Pending List, Accounts, EMI Receipt/Settlement, Reports.
- **Quick Actions Menu:** Universal search bar, Day Closing trigger, Notifications (Reminders).

2. Authentication & User Management (Masters -> Users)

Page: Login Screen

- **UI Elements:** Company Logo, Username Input, Password Input, Login Button, "Forgot Password" link.

Page: User Creation Form

- **Inputs:** Employee Name, Employee Code, Username, Password.
- **Role Dropdown:** Super Admin (Full access), Office Staff (No accounts access), Collection Agent (Mobile App only).
- **Access Toggles:** Multi-branch access checkboxes (e.g., Branch A, Branch B), Allowed Login Time Window (Start Time - End Time).

3. Dashboard Interfaces

Page: Super Admin Dashboard

Visual layout of high-level business metrics.

- **KPI Cards (Top Row):** Active Loans (Count), Closed Loans (Count), Seized Vehicles (Count), Total Principal Balance (₹), Cash in Hand (₹), Fixed Deposits (₹).
- **Today's Operations (Middle Row):** Loans Disposed Today (Count/₹), Settlement Amount Received Today (₹), Interest Amount Received Today (₹), Profit & Loss Today (₹).
- **Graphical Widgets:** Month-over-Month Bar/Line charts showing Principal vs. Interest

collection flow.

Page: Staff/Admin Dashboard

Focused on daily operational tasks.

- **KPI Cards:** Today's Receipts (Count), Accounts Closed Today, Vehicles Seized Today, Re-loans Processed Today.
- **Action Widget: "Today's Due List"**
 - Displays: "X customers due for the [Date]th".
 - Clickable list opening a quick-action modal to view ledger, trigger a call, or add a remark.
- **Action Widget: "Promised Customers"**
 - List of customers who promised to pay on the current date (populated from Call History logs).
- **Utility: EMI Calculator Widget**
 - Inputs: Loan Amount, Interest Rate, Tenure (12, 24, 36 months).
 - Outputs: Total Interest, Monthly EMI Amount.
- **System Action:** "Day Closing" Button (Must be clicked to process end-of-day ledgers before viewing the next day's pending list).

4. Loan Origination Flow (HP Ledger Create)

Multi-step form wizard for creating a new loan.

Step 1: Basic & Vehicle Details

- **Inputs:** Customer Name, Mobile Number, Residential Address, Vehicle Number, Geo-Code (Map link).
- **File Uploaders:** Customer Photo, RC Book PDF/Image, Vehicle Photo.
- **Navigation:** "Next" Button.

Step 2: Financial Configuration

- **Inputs:** Vehicle Value (₹), Down Payment (₹), Loan Amount (₹), Interest Rate (%), toggle for flat/diminishing), Loan Issue Date (Calendar), First Due Date (Calendar), Tenure (Dropdown: months).
- **Auto-Calculated Display:** Total Principal, Total Interest, Calculated Monthly EMI.
- **Toggle:** "Round off EMI amount" (Checkbox).

Step 3: Charges, Penalties & Payouts

- **Inputs:** Penalty Grace Period (e.g., 3 days), Penalty Amount Per Day (₹), Hand Loan/Extra Charges (₹ - for insurance/RTO).
- **Dropdowns:** Broker Name, Dealer Name.
- **Payment Splitter:** Payment Mode 1 (Cash/Bank) + Amount; Add Mode 2 (Cash/Bank) + Amount.
- **Inputs:** Document Charges (₹), Broker Commission (₹).

Step 4: Guarantor Details

- **Inputs:** Guarantor 1, 2, 3 Names, Phone Numbers, Aadhaar Numbers.
- **Logic:** Aadhaar input triggers an auto-check displaying any existing loans/defaults linked to that Aadhaar.
- **Navigation:** "Finish & Save" Button.

5. Search & Universal Filter Page

Page: Universal Directory

- **Search Bar:** Accepts Account No, Name, Mobile No, or Vehicle No (supports partial search, e.g., last 4 digits).
- **Filter Panel (72+ permutations):** Checkboxes/Dropdowns for Active, Closed, Seized, Vehicle Type (2-wheeler/4-wheeler), Dealer Name, Broker Name.
- **View Toggles:** Grid View (Card based) vs. List View (Table based).

6. Customer 360° Profile (Single View Interface)

Page: Customer Ledger Profile

- **Header Panel:** Customer Name, Loan Number, Vehicle Number, Current Status Badge (Active/Seized/Closed).
- **Quick Action Toolbar:** Buttons for [Receipt], [Edit Details], [Settlement], [Re-Loan], [Seize Vehicle], [SMS/Call].
- **Tabbed Navigation (New Full View):**
 - **Tab 1: Ledger/Due Chart (Default):** See below.
 - **Tab 2: Guarantor Info:** Photos and contact details of guarantors.
 - **Tab 3: Asset Photos:** Car photos, RC book.
 - **Tab 4: Documents & Prints:** Generate/Print Legal Ledger Sheet, Due Card (pocket card), Seizing Letter, NOC.
- **UI Element: Dynamic Due Chart (Table)**
 - **Columns:** Due Date, Receipt No, Paid Date, Principal, Interest, Penalty, Balance.
 - **Color Coding Logic:** Red Row (Overdue/Time Expired), Green Row (Upcoming Due), White Row (Paid/Cleared).
 - **Dynamic Rows:** If a partial payment is made, the UI automatically splits that month's row into two (one White for paid amount, one Red for balance amount).

7. Payment Gateway & Collections

Modal: EMI Receipt Form

- **Triggered from:** Customer Profile -> [Receipt] Button.
- **Inputs:** Amount Paid (₹).
- **Auto-Calculations:** The system auto-fills the accrued penalty.

- **Overrides:** Admin can override/zero-out the penalty field.
- **Logic:** Submitting a bulk amount (e.g., ₹10,000) automatically allocates funds to the oldest overdue rows first, clears penalties, and applies the remainder to upcoming dues. Generates printable/SMS Digital Bill.

Modal: Settlement & Account Closure

- **Triggered from:** Customer Profile -> [Settlement] Button.
- **Display:** Total Principal Due + Total Interest Due + Total Penalty Due = Final Settlement Amount.
- **Inputs:** Editable fields to apply flat discounts to Interest or Penalty before final closure.
- **Action:** [Close Account] or [Convert to Re-Loan].

8. Recovery & Asset Management

Modal: Seize Vehicle

- **Inputs:** Date of Seize, Seized By (Agent Dropdown), Godown/Yard Location, Seizing Charges (₹), Remarks.
- **Action:** Submitting changes the global account status to "Seized" (Red).

Modal: Release Vehicle

- **Logic:** Triggers a receipt form to collect Seizing Charges (moves charges to Hand Loan ledger) and reverts status to Active.

9. Pending Lists & Reports

Page: Pending Task Manager

- **Sub-tabs:** Missing Photos, Missing Gov IDs, Missing GPS Locations, Termination Accounts (Tenure over, balance remains).
- **Filter Engine:** Date ranges, Due ranges (e.g., 5th to 10th), Non-Transaction Months (No payments in 6-12 months).
- **Export Options:** [Export CSV], [Export PDF], [Print].

Page: Report Center

- **Bill Report:** Table of all generated receipts (Date, Time, User, Amount). Shows cancelled bills (greyed out/struck through).
- **HP & Collection Graph:** Monthly Bar/Line chart of Disbursements vs. Collections.
- **HP Balance Sheet:** Table showing exact Principal, Interest, and Penalty balances per customer.
- **Auditor Exports:** One-click CSV generation for financial auditing.

10. Mobile Field Collection App (Android/iOS)

A streamlined app for field agents with limited data entry and high navigation utility.

Screen 1: Login & Home

- **UI:** Username/Password. Home screen features a large Search Bar (optimized for partial vehicle number entry at traffic signals).

Screen 2: Route/Area Manager

- **UI:** List of assigned geographical areas (e.g., "100 Feet Road"). Clicking an area opens a list of default customers in that route.

Screen 3: Customer Mobile Profile

- **UI:** Customer Name, Photo, Loan Balance, Last Paid Date.
- **Action Icons:** [Phone Icon] (Triggers cellular call), [WhatsApp Icon] (Opens chat).
- **Forms/Actions:**
 - **Tag GPS:** Button to capture current phone coordinates and save to customer profile.
 - **Add Remark:** Text area for notes + Date picker for next promise date.
 - **Put Bill (Receipt):** Input field for Cash Collected (₹) -> [Submit] (Syncs to cloud immediately).
 - **View Ledger:** Opens a mobile-optimized view of the desktop Due Chart (Red/Green/White rows).
